B)根据短文内容,选择最恰当的答案 (10分)

Man has a big brain. He can think, learn and speak. Scientist once thought that men are different from animals because they can think and learn. But now scientists are beginning to understand that men are different from animals because they can speak. Animals cannot speak. They make noise when they are afraid or angry. Apes(猿) can understand some things more quickly than human. one or two of them have learned a few words. But they cannot join words to make sentences. They cannot think like us because they have no language. Language is a wonderful thing. Man has been able to build a modern world because he has language. Every child can speak his own language very well when he is four or five---but no animal learns to

speak. How do children learn it? Scientists do not really know. What happens inside our body when we speak? Scientists do not know, either. They only know that man can speak because he has a big brain.
